Sampling Instructions: Fecal Coliform in Soils

Please remember to provide the information requested on the opposite side of this form.

1. Samples are accepted for analysis on Monday through Thursday from 8:00 a.m. to 4:00 p.m. and the fee for analysis is \$46.00, not including shipping.
2. Samples must be accepted for analysis within 48 hours of the collection time. Therefore, plan ahead by pre-selecting a day and time to collect your sample that will allow for shipping or travel time.
3. Completely fill out the information requested on the opposite side of the form. *Essential information must be completed for sample to be accepted.
4. Select the appropriate sampling area needed to obtain a representative sample for the soils; Soil samples need to be around 100 grams; Surface layer (such as litters) should be removed, and a composite of soils from at least 3 places in the area should be obtained.
5. If help is needed to make this choice, please contact Dr. Uttam Saha at 706-542-7690.
6. **Sample should be kept in a sealed plastic container (or sealed plastic bag) and refrigerated immediately after collection.**
7. It is best to take samples during a range of environmental and climatic conditions, especially during times when maximal pollution occurs.
8. Ship the sample with an **ice pack** affix UPS shipping label and call UPS at 800-742-5877 to determine your local pick-up/drop off place and time for overnight shipping. Or hand deliver to the FEW Lab: 2300 College Station Rd., Athens, GA 30602.
