UPS CampusShip administration

UPS CampusShip

Getting started

Once your UPS CampusShip representative has enrolled your company, you will receive two e-mails:

- The first is your Welcome E-mail containing your User ID and the URL to access the site.
 - The second e-mail contains your temporary password.
1. To log in, click on the link for your company's unique UPS CampusShip Internet address, which you received via e-mail, or log in at **campusship.ups.com**.
 2. You will be asked to log in to your company's UPS CampusShip system with the User ID and password provided in the two e-mails from UPS CampusShip. Please note that User IDs and passwords are case sensitive.

Optional step — If you would like to change the language on the **Log In** page, choose the appropriate language from the **Languages** drop-down menu. Then click the blue arrow.

3. As a new user, please read the UPS CampusShip Terms and Conditions and click the **Accept** button to continue.

Log In

Welcome to UPS CampusShip. To begin, please enter your User ID and Password.
Note: User ID and Password fields are case sensitive.

Getting started (cont.)

As a UPS CampusShip administrator, your authority can range from all rights at the company level (Company Administrator) to certain rights granted for a specific location (Location Administrator).

As an administrator, you will have an **Administration** button next to the **My Settings** button, on the top navigation tool bar.

Click the **Administration** button to go to a screen that provides total access to the administration functions of UPS CampusShip.

1. Click the **Administration** button to access the administration functions of UPS CampusShip.
2. Use the administration functions to manage your company's locations, reference numbers, shipping privileges, address groups and users.

Manage company information

The Manage Company Information section allows you to enter and manage key information, such as company contact information. You may also choose either company or location name to be displayed on shipping labels, and you may add your logo to all UPS CampusShip screens and to your Commercial Invoices. Select the **Administration** button, and the appropriate link on the left navigation bar to edit company information at any time.

Reference number options: Located under the **View or Edit Company Information** link, you may set the default Reference Number display and validation for the entire company.

Log-on labels: Located under the **View or Change Company Log-On Labels** link, you may edit the field names on the Log-On page of UPS CampusShip (for example: you may replace User ID with Employee Number).

IP filter settings: As an added security measure, you may restrict users from accessing UPS CampusShip outside of your organization's network (with the exception of Traveling Users and Company Administrators). If users attempt to access UPS CampusShip from an IP address not in the recorded range, they are denied access and receive an error message. To utilize this feature, you need basic information about your company's network; you may want to contact your company's network administrator.

Import a company logo

1. Select the **Administration** button on the top navigation tool bar, go to the **Manage Company** link, and select the **View or change company logo displayed by the UPS CampusShip** link.
2. Browse to the logo's file location. UPS CampusShip supports two GIF file format image layouts/sizes: Portrait (62 pixels wide by 50 pixels high) and Landscape (124 pixels wide by 50 pixels high) with a maximum file size of 4KB. The logo must conform to these file specifications.
3. Select the **Update** button to display your company logo.
Note: *Only Company Administrators can complete this task.*

Manage company information (cont.)

Within the **Manage Company** screen, you can override all shipping privilege set reference number options with these settings:

- Require users to enter reference numbers while processing shipments by selecting the check box for references from List 1, 2 or 3 in **Manage Reference Numbers**.
- Allow users to select reference numbers from a list or display a **Search** link.
- Choose to validate the reference numbers that users enter against List 1, 2 or 3 in **Manage Reference Numbers**. (See the **Manage Reference Numbers** section for directions on how to create a list of reference numbers.)

Reference Number Options

	<u>Ref</u> <u>List</u> 1	<u>Ref</u> <u>List</u> 2	<u>Ref</u> <u>List</u> 3
Require to Ship:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Select from List / Display Search Link:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Validate against List:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Override all Shipping Privilege set reference number options with these settings.

Manage locations

A UPS CampusShip company location can be defined as a department, office, business unit, subsidiary or multiple departments sharing the same physical address. An unlimited number of locations can be set up in all countries offering UPS CampusShip, allowing for maximum flexibility in organizing and naming locations within a single global company setup. For any location, you can choose whether the location name or company name appears on the return address of all packages you send.

Set up a company location before you add or import users. Each location must be associated with a UPS® account number belonging to that location. Before you set up a new location, you must have the UPS account number available for that location. You may have multiple locations for one UPS account number (i.e., account 123456 may have a location called Mail Room and a location called Accounting). Locations may be set up in any country that offers UPS CampusShip (i.e., a German company may set up their U.S. location under their German UPS CampusShip company).

TIP: If you need a UPS account number, go to [ups.com](https://www.ups.com)® and select **Open a UPS Account** from the **Shipping** tab.

Create new company locations

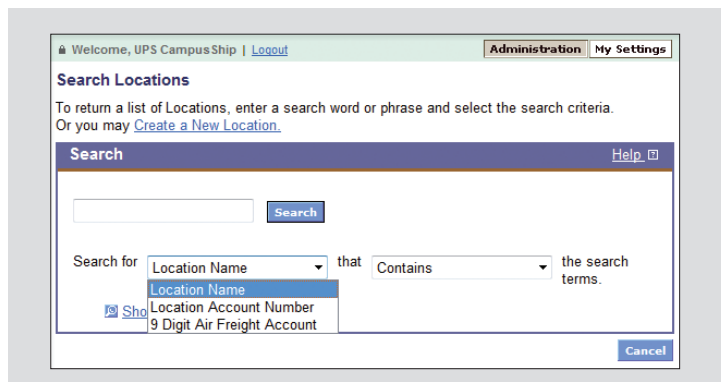

1. Select the **Administration** button on the top navigation tool bar, go to the **Manage Locations** link and select the **Create Location** link.
2. A **Location Details** screen displays. (To stop this process, select the **Cancel** button on the bottom of the screen.)
3. Enter detailed information about the location (e.g., address, location contact name, e-mail address, phone number and extension and the UPS account number and/or SCS account number for that location). If enabled by UPS, you have the option to display published or negotiated rates by location. It is also recommended that you enter information into the **Location Support Information** fields. This support information appears at the bottom of the **UPS CampusShip** screen for all users assigned to that location.
4. Ensure that the required fields in bold contain acceptable and accurate data, then select the **Create** button. If the update is unsuccessful, you will receive a message informing you of the fields that should be modified or completed.

Import new company locations

You may import location information from a comma-separated value, or CSV, file. For information and instructions, please refer to the online **Help**, which can be accessed by clicking the **Help** link on the left side of your screen.

Manage locations (cont.)

As a UPS CampusShip Administrator you may quickly search for a Location by Name, Account Number or by a 9 Digit Air Freight Account Number.

Manage rates display

For the **Manage Locations** page, administrators must enable the display of account-specific negotiated rates for new or existing locations once UPS has activated your company and account(s) for Negotiated Rates.

1. Select **Manage Rate Display Settings for All Locations**.
2. Select **Display Negotiated Rates for all locations with enabled accounts** and then select **Submit**.

To verify a location's rate display setting, select **Search Locations**, then view the **Location Rate Type Display Setting** as either published or negotiated. For users to view the negotiated rates, the **Viewing of Negotiated Rates Activated by UPS** column must say "Yes" if Negotiated Rates were activated by UPS.

Search Locations

To return a list of Locations, enter a search word or phrase and select the search criteria. Or you may [Create a New Location](#).

Location Information

Manage Rate Display Settings for All Locations:

Display Negotiated Rates for all locations with enabled accounts.

Display Published Rates only for all locations with enabled accounts.

Manage locations (cont.)

For any location, you can set the display for either negotiated or published rates by first viewing **Location Details** and then selecting **Verify Rate Display Settings**. If desired, select **Display Negotiated Rates**.

The image shows two screenshots of the UPS CampusShip web interface. The top screenshot is the 'Location Details' page, which contains various input fields for location information such as Name, Country, Street Address, City, State, ZIP Code, and Account Number. It also includes contact information fields like E-mail, Telephone, and Fax. A link labeled 'Verify Rate Display Settings' is highlighted with an orange box. Below this link is a '9 Digit Air Freight Account' field and an 'Important Note' link. The bottom screenshot shows the 'Verify Rate Display Settings' page, where the 'Location Account Number' is '1YE595'. Two radio buttons are present: 'Display UPS Published Rates' (unselected) and 'Display Negotiated Rates' (selected). A note at the bottom states: 'Note: This display control can only be set or changed by a Company Administrator.' Buttons for 'Cancel' and 'Update' are at the bottom right.

Manage shipping privileges

Privileges determine the shipping services and options that are permitted for a set of users. This feature allows you to quickly apply a set of privileges to new users that you create. The available options described within Manage Shipping Privileges apply to small package services only.

Use default shipping privileges

To provide a baseline, UPS CampusShip features four default shipping privilege sets in **Search Shipping Privileges**.

The following are available for users in the U.S. or Puerto Rico:

- **All services, all add-on services** (domestic and international services with ALL add-on services).
- **All services, limited add-on services** (domestic and international services with a limited set of allowable add-on services).
- **Domestic only, all add-on services** (no international services with ALL add-on services).
- **Domestic only, limited add-on services** (no international services and a limited set of add-on services, such as Saturday Delivery).

The services within each privilege set shown below are the automatic defaults established for each UPS CampusShip geographic region.

- **All services, all add-on services**, North and South America.
- **All services, all add-on services**, Europe.
- **All services, all add-on services**, Asia.
- **World traveling user** (all shipping privileges).

These shipping privilege sets can be customized to meet your users' specific shipping needs.

Manage shipping privileges (cont.)

Create new shipping privileges

If you would like to customize privilege sets for **small package shipments**, you must create them before you can assign users to them. To enable your users to ship Freight, you must select the **Freight Services** check box.

1. Select the **Administration** button on the top navigation tool bar, go to the **Manage Shipping Privileges** link and select the **Create Shipping Privileges** link.
2. A **Shipping Privilege Details** page displays. (To stop this process, select the **Cancel** button at the bottom of the page.)
3. Enter a **Shipping Privilege Name** (i.e., “All Services”). Then confirm that the **Shipping Privilege Countries** are correct. If incorrect, select the **Edit** link to make the necessary changes. Next choose the shipping privileges that you would like to grant based on your company’s needs. There are two ways to build the privilege set:
 - Activate ALL privileges in a section.
 - Activate specific privileges by selecting individual check boxes (e.g., allowable payment or billing methods, rate display settings and address book privileges).
4. Once you have entered all information, select the **Create** button. If more information is required, you will receive a message that displays the fields that should be modified or completed.

Manage users

Create new users

Create new UPS CampusShip users by entering their profile information into the system.

1. Select the **Administration** button on the top navigation tool bar, go to the **Manage Users** link and select the **Create Users** link.
 - Enter the requested user information. Required fields are shown in bold.
 - Assign the user to a company location. To find the location, select the **Search** link.
 - Assign a shipping privilege set to the user. To find a shipping privilege set, select the **Search** link.
 - Select the **Create** button. The user then receives his or her User ID and temporary password in two separate e-mails.
2. To set additional privileges, including administrative authorities, select the **Modify This User's Privileges** link on the confirmation page.
 - To authorize the user to modify the **Ship From** address, set **Traveling User Status** to **ON**.
 - Company Administrators in the U.S. may allow users to order UPS supplies online from **ups.com** by setting **Authority to Order UPS Supplies** to **ON**.
 - To set administrative authority (the default is **NO Administrative Authority**):

Welcome, UPS CampusShip | [Logout](#) Administration My Settings

Manage CampusShip User Information

Create a CampusShip user. To save, select Create.

User Information [Help](#)

<p>User Name: <input type="text"/></p> <p>User ID: <input type="text"/></p> <p>E-mail: <input type="text"/></p> <p>Re-enter E-mail Address: <input type="text"/></p> <p>Telephone: <input type="text"/> Ext: <input type="text"/></p> <p>Fax: <input type="text"/></p> <p>Company Location: Select One <input type="text"/></p> <p>Search for Location Names</p> <p>Language Preference: Select Language <input type="text"/></p>	<p>Assigned to Shipping Privilege Set: Select One <input type="text"/></p> <p>Search for Shipping Privilege Names</p> <p>Default Reference #1 Value: <input type="text"/></p> <p>Search for Reference #1 values</p> <p><input type="checkbox"/> Do not allow user to change Reference #1 value</p> <p>Default Service Level: Select a default service <input type="text"/></p> <p>Traveling User Status: <input type="radio"/> ON <input checked="" type="radio"/> OFF</p> <p>Authority to Order UPS Supplies: <input type="radio"/> ON <input checked="" type="radio"/> OFF</p>
--	---

- Select either **Company Administrator** or **Location Administrator**. If **Location Administrator** is selected, activate **All Location Administrator Authority** or assign the specific authorities by selecting the appropriate check boxes.
- To save and activate your choices, select the **Update** button.

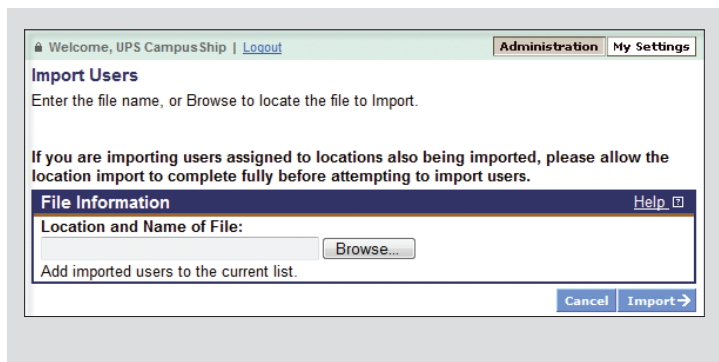

Manage users (cont.)

If you have set a user to be a Location Administrator, you must edit the user again and add the locations you would like the user to administer. To complete this:

- Select the **Search Users** link to find the user you just created, then click on their **User ID** link.
- Select the **Edit** link next to the assigned locations.
- Type in the **Location Name** or select **Search for location names**, then select the **Add** button.
- You may assign multiple locations. Once all locations have been added, select the **Update** button.

Import new users

You may input user information from a comma-separated value, or CSV, file. For information and instructions, please refer to the online **Help**, which can be accessed by clicking the **Help** link on the left side of your screen. To view the **Import File Format for Users**, click the **Help** link in the upper right of the **Import Users** page.

What is the correct import file format for users?

Review the Import File Format table for the Users import file. All files must be saved with a .csv extension with the comma as the field delimiter. The import file must include the comma delimiter even for optional fields.

Field Name	Field Type	Maximum Field Length	Required	Valid Values
Name	Alphanumeric	35	Yes	User's first and last name
Login Name	Alphanumeric	16	Yes	User's login name. Must be unique across system
Location	Alphanumeric	35	Yes	User's location name. Location must be created prior to user import
E-mail Address	Alphanumeric	50	Yes	User's e-mail address; example jdoe@somecompany.com
Telephone	Numeric	15	No	User's telephone number
Extension	Numeric	4	No	User's telephone extension
User Shipping Privilege Set Name	Alphanumeric	50	Yes	User's Shipping Privilege. Shipping Privilege must be created prior to user import
Default Reference 1	Alphanumeric	35	No	Default Reference 1
Default Service Level	Alphanumeric	3	No	Default Service Level. See codes below
Traveling User	Alphanumeric	1	No	Enter 1 if the user should be a traveling user. Enter 0 if the user should be a non-traveling user
Supply Ordering	Numeric	1	No	Enter 1 if user has the authority to order UPS supplies. Enter 0 if the user does not have the authority to order UPS supplies
Fax Number	Alphanumeric	15	No	User's Fax Number
Location Administrator Indicator	Alphanumeric	1	No	Enter 1 if the user is a location administrator. Enter 0 if the user is not a location administrator
Do not allow user to edit Reference #1 value	Alphanumeric	1	No	Enter 1 for checked to not allow user to change Reference #1 value. Enter 0 for unchecked to allow user to change Reference #1 value.

Manage users (cont.)

Invite users to join company

You may invite existing My UPS users to join your company so that they may begin using UPS CampusShip. By using the **Invite Users** link from the **Manage Users** page, simply enter the user's My UPS User ID and e-mail address. The recipient will receive an e-mail inviting him or her to join the company. Once the user has accepted, a notification e-mail will be sent to the Company Administrator. Upon receipt of the acceptance e-mail, the Company Administrator must log in to UPS CampusShip, access the user profile using **Search** in **Manage Users**, and assign the user to a Shipping Location and a Shipping Privilege.

The screenshot shows the 'Invite Users' page in the UPS CampusShip administration interface. At the top, there is a navigation bar with 'Welcome, UPS CampusShip | Logout', 'Administration', and 'My Settings'. The main heading is 'Invite Users', followed by instructions: 'To invite a user that is not currently a company user to join your company, provide the following user information. User ID is case sensitive. Required fields are shown with bold.' Below this is a form titled 'Complete Invitation' with two input fields: 'User ID:' and 'E-mail:'. At the bottom right of the form are 'Cancel' and 'Submit' buttons.

Below the form is an example of an invitation email. The email header includes the UPS logo and the title 'Technology Invitation'. The body of the email reads: 'Learn more: UPS CampusShip Features and Benefits'. 'You have been invited to join Company A as a company user on UPS.com. Company A has requested to add your User ID, 999999999 to their company. By joining as a company user, you will have access to additional service offerings. To join Company A as a company user, click here to confirm your acceptance. Thank you'.

Shipping

When you are ready to begin shipping, log in to access the **Shipping** page. From here you can Create a Shipment for Package (less than 150 lbs) or for Freight (over 150 lbs) shipments. Then, select the desired option to begin your shipment.

The next few pages will cover the process to complete a Package Shipment.

Note: In order for you to complete a Freight shipment, your company's UPS CampusShip Administrator will need to enable Freight Services in Administration.

My UPS Address Book

Package shipping

Where is this shipment going? First, enter or select a contact or a distribution list by typing into the field provided. You can also access the Corporate Address Book, or select **External Address Book** to select a contact from your Microsoft® Outlook® address book.

Where is this shipment coming from? Verify your **Ship From Address** and select **Edit** to modify. The **Ship From Address** is used for determining rates and available services, so it should reflect the actual address from which a shipment will originate. If needed, you can specify a different return to address in case the shipment is undeliverable.

Note: You will only be able to modify these addresses if your Company Administrator has set you up as a traveling user.

What are you shipping? Specify the number of packages in the shipment (up to 20), and whether the packages are the same. Provide a weight. Specify dimensions for a more accurate rate.

Visit the **Help** link for further detail.

Microsoft and Outlook are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.

Complete shipment

At this point, UPS has received your shipment data. Now print the labels, affix them to the packages and give the packages to UPS.

Check the **Label** and/or **Receipt** boxes to print your label and/or receipt. You may change your printing preferences (laser printer or thermal printer) for this shipment only, in the **Printing Preferences** section at the bottom of the screen. Then, select the **Print** button. You can also specify if you want instructions printed.

The **Complete Shipment** screen contains tips on suggested **Next Steps** for getting your shipments to UPS, obtaining shipping history and instructions for shipping again.

Shipping ticket

Administrators may give users the ability to partially process shipments. This feature is useful for users who want to process a package with UPS CampusShip before they know the actual weight or when the shipment will be complete for processing.

At the time of shipment processing, the user who created the Shipping Ticket or another designated Shipping Ticket processor can access the shipment, enter or modify shipment data, complete the shipment, and print the label when the **Ship Now** button is selectable.

If you are creating a shipping ticket, in order for someone else to process the ticket and finalize your shipment, select the check box to **Save as Shipping Ticket**.

To review your details, including price before completing your shipment, keep the check box selected before completing your shipping ticket or shipment. When complete, select **Next**.

Note: These UPS CampusShip features are only available if assigned by your Administrator.

Batch file shipping

You may import a batch of up to 250 shipments from a CSV file. This will enable you to quickly batch process shipments to multiple destinations. All batch shipments' **Ship From Address** and payment method (bill to **Account Number** or **Third Party** only) must be the same for all shipments in the batch.

An Error File will be generated for any failed shipments in the batch, enabling users to easily download, correct and re-import the shipments.

Note: *You will only be able to ship using a Batch File if your Company Administrator has assigned you to this privilege.*

The screenshot displays the 'Batch File Shipping' interface in the UPS CampusShip system. The page is divided into a left-hand navigation menu and a main content area. The navigation menu includes links for 'Shipping' and 'Resources', with a sub-menu for 'Shipping' containing options like 'Create a Shipment', 'Create a Return', 'Create a Freight Shipment', 'Ship Using a Batch File', 'View History', 'Void Shipment', 'Shipping Ticket History', 'Process a Shipping Ticket', and 'Shipping Preferences'. The main content area is titled 'Batch File Shipping' and features a 'Begin Your Batch File Shipment' section with a 'Help' link. Below this, there are three numbered steps: 1. 'Upload Batch File' with a text input for the file location and a 'Browse...' button; 2. 'Where is this shipment coming from?' with a 'Ship From Address' field (including an 'Edit' link), a 'Contact' field, and a 'Return Address' dropdown menu; 3. 'Payment Information' with a 'Bill Shipping Charges to' dropdown menu. At the bottom of the form, there is a checkbox for 'Terms and Conditions' and two buttons: 'Start Over' and 'Next »'.

Air freight shipping

Like Package shipping, the first step to air freight shipping is to let UPS know where the shipment is going. You can either key enter an address or select a saved address from your Address Book.

Where is this shipment coming from? Verify your **Ship From Address** and select **Edit** to modify. The **Ship From Address** is used for determining rates and available services, so it should reflect the actual address from which a shipment will originate. If needed, you can specify a different return to address in case the shipment is undeliverable.

Note: You will only be able to modify these addresses if your Company Administrator has set you up as a traveling user.

How are you shipping? Select the UPS service you would like to use from the drop-down menu. You may also enter the estimated weight for your shipment. This will help UPS to determine the most accurate cost for your shipment. Next, select the date of your shipment and the time that the shipment will be ready for UPS to pickup and the latest time that the shipment may be picked up by UPS.
